Summary

Frontend Developer Passionate about building responsive, user-centric web applications with a focus on clean code and seamless user experiences. Hands-on experience in modern JavaScript frameworks, UI/UX principles, and performance optimization. Dedicated to bridging the gap between design and functional logic, while staying up-to-date with the latest web technologies and best practices in frontend architecture.

Technical Skills

- Core Web Technologies: HTML5 (Elements & Attributes), CSS3 (Advanced Layouts, Animations, Media Queries).
- JavaScript Development: Advanced JS, DOM Manipulation, Functional Programming, Arrow Functions.
- Frontend Frameworks: React.js (Class Components, Functional Components, Hooks).
- State Management: Redux.
- UI Frameworks: Bootstrap, Responsive Web Design.
- Tools & Principles: Version Control (Git/GitHub), Cross-browser Compatibility, Clean Code.

Work Experience

Front-End Developer Internship, Darrbeni Homs, Syria August, 2024 - December, 2024

- Developed and maintained responsive web applications using React.js, ensuring high performance and a seamless user experience across various devices.
- Implemented complex UI components using Functional & Class Components, and managed state efficiently using React Hooks and Redux.
- Built modern, stylized layouts using HTML5, CSS3 (Animations & Media Queries), and Bootstrap to achieve pixel-perfect designs.
- Utilized JavaScript (ES6+) and DOM manipulation to create interactive and dynamic website features.
- Collaborated with the development team to solve complex technical tasks, following industry best practices and clean code standards.
- Awarded a formal Recommendation Letter from the CEO for outstanding performance, technical dedication, and quick mastery of the React ecosystem.

Front-End Developer Internship, Vica Web Solutions Homs, Syria September, 2025 - January, 2026

- Completed an intensive Frontend Development program, focusing on building modern, responsive, and performance-optimized web applications.
- Mastered core frontend technologies, including HTML5, CSS3, and JavaScript (ES6+), with a strong emphasis on creating interactive user interfaces.
- Developed several hands-on projects using modern workflows, ensuring cross-browser compatibility and mobile-first design principles.
- Applied UI/UX best practices to enhance user engagement and deliver high-quality visual experiences.
- Gained practical experience in debugging, version control, and collaborating on technical tasks within a professional development environment.
